TORM AWARDED FOR ITS 2009 ANNUAL REPORT

Hellerup, 29 October 2010 – TORM is pleased to announce that the company has received an award for its 2009 Annual Report in the category of best annual report outside OMXC20 according to the International Financial Reporting Standards (IFRS). The award was presented by the Danish Association of Chartered Financial Accountants and the Danish newspaper Børsen in connection with their annual financial reporting awards 28 October 2010.

As part of its motivation for giving TORM the award, the selection committee stated that, “TORM’s chapter on future expectations is relevant and contains expectations for the development of key figures for the coming three years for the market and for TORM’s business.”

Furthermore, TORM’s description of risk management and business related risks in both the Management Report and the Financial Review was emphasised.

Last but not least, the selection committee stated that “the description of CSR and corporate governance is complete and comprehensive.”

“Naturally we are proud to receive recognition for our annual report. It is our strong conviction that making a complete and satisfactory report also makes good sense from a business perspective,” says CFO of TORM, Roland M. Andersen.

TORM’s Annual Report 2009 can be downloaded from the company’s website (www.torm.com).
